

Name: Terezia Hrdlovicova

The game: Save the Dino

The goal of the game is to collect 10 balloons to help the little Dino escape earth and fly to search for a new home. The balloons (good objects) are flying up and at the same the asteroids (bad objects) are falling down. One must be careful not to hit the asteroids, because for each hit, they lose 1/3 lives represented by hearts. The time is set to 1 minute to complete this task.
